"Pearl Of Euphoria"

Your price, name the time

The suspect or the crime

The shadow of my gun

Get down or you can run

Feed the demon, kiss the flame, feel your desire

Empty room, turn the key

You're never alone

When you're with me

Temptation, break the vow

Cut flesh from the sacred cow

Unchain the tiger, kiss the flame, feel your desire

Feed the demon, kiss the flame, feel your desire

Soaked in fear, the curtain falls

Religion within these walls

Mystify my soul beliefs

Confession is my release

Feed the demon, kiss the flame, feel your desire

Unchain the tiger, crucify, feed your desire

Pearl of euphoria

Pearl of euphoria
