Hey, ahh

Ahh, yea yeah

Had your name all tattooed on my heart

It's gone, how could this be wrong

It's unbelievable, unbelievable

Just the picture of me

Left out in this Hollywood babylon

Was unbelievable, unbelievable

So let my greatest fear walk out the door, ahh

This ain't what we're fighting for, ahh

You don't say that it's over, over

Never thought this could die

But you speak without words

Making me feel so damn good, 'bye

It's unbelievable

Girl, I picture how the ghost of you

Would follow me everywhere

It's undeniable, unbelievable

If I couldn't feel your velvet lips

Your fingers run through my hair

It's inconceivable, unbelievable

So let my greatest fear walk out the door, ahh

This ain't what we're fighting for

You don't say that it's over, over

Ahh, never thought this could die

But you speak without words

Speak without words

Making me feel so damn good, 'bye

Did you really think about it

What we could be missing

I found it so hard to believe, yeah

Unbelievable, it's unbelievable, yeah

You don't say that it's over, over

Ahh, never thought this could die

But you speak without words

Speak without words

Making me feel so damn good, 'bye

You don't say that it's over, over, yeah

Ahhh, never thought this could die

Oh but you speak without words

Speak without words

Making me feel so damn good, 'bye

Making me feel so damn good, 'bye

Unbelievable, yeah, unbelievable
