Well love's a word I could never really get
To roll off my tongue,
So I'm done with hope and certainty

Well your a girl I could never really quite figure out
So I've dealt without pleasantries

So if you come to me and I'm not conscious
Lie down with me,
Just know your staying busy
If I won't calm down
Tell me to behave and I'll listen,
Ohh, I'll listen

Well loves a word I didn't ever really quite figure out
What it's all about
Forever, or just right now

Yeah you paid an for it but I lost my way
I just couldn't have that money in my reach

So if you come to me and I'm not conscious,
Lie down with me
Just know your staying busy
If I won't calm down
Tell me to behave and I'll listen,
Ohh, I'll listen [x3]
