"Rock Island Blues"

Visit "[Rock Island Blues](#)" on MotoLyrics.com

They tell me the Rock Island is a mean old train to ride
They tell me the Rock Island is a mean old train to ride
And the reason I know it is I've got my baby by my side

I hear the train whistle blowin' I know it's coming after
me

I hear the train whistle blowin' I know it's coming after
me

And I believe I'll go back To my old time used to be

It's a long freight train with a red and green light
behind

It's a long freight train with a red and green light
behind

Says the red mean danger and that green means a
ramblin' mind

Says I went down to the station baby and I looked up on
the board

Says I went down to the station baby and I looked up on
the board

I asked the depot agent did my baby go down the
road?
