I wake up at dawn to  
start a road train on the highway  
I make a living driving on the road  
I'm a trucker  
I drive a road train  
my work takes me  
on all open roads and  
I'm travelling everywhere

I drive a road train  
I drive a road train  
I drive a road train on the highway

when I'm on the desert road  
I realize how quiet it is  
I see the road stretches for miles ahead  
I feel the heatwave burn me and  
wipe the sweat off my brow  
I put my shades on  
while I'm on the road train

I drive a road train  
I drive a road train  
I drive a road train on the highway

1x chorus

there are shifts when I drive  
all day and night  
to make my delivery by the deadline  
when I'm weary from driving all day and  
I have to rest my strained eyes  
I find a motel bed for the night  
refuel my truck for the next dawn light

I drive a road train  
I drive a road train  
I drive a road train on the highway.
