Tornado
tornado
tornado

eye of a storm
happening on an afternoon
a bright clear day
turning cloudy and gray
a strong thunderstorm
became a wind force to fear

tornado
coming this way
swirling on a north eastern road
tornado

it is lighting the sky
the air is warm and cold
cloudy dust and swirling debris
stormy skies ahead

tornado

tornado
coming this way
swirling on a north eastern road
tornado

tall tornado
reaching up into the sky
spinning and drifting
on the Earth

tornado
coming this way
swirling on a north eastern road
tornado.
