Sometimes I'm lost in black and white

May I look good in technicolor?
Our love isn't meant to last
no time to rest

we can do it tonight
tonight.
I'm a man of constant change but now I'm rearranged

I know what to do tonight.
Our love isn't meant to last
no time to rest

we can lose it tonight
tonight.

Come on
take my hands tonight
no time to rest

Take my hands tonight
tonight
tonight.
Come on
take a chance tonight
come on

we've got to testify
testify.

We are young
we haven't got the time

No time to even cry
no matter how we try.
We can see the overwhelming fright
with our last glance tonight.
Take my hands tonight
tonight
tonight.

Come on
take my hands tonight
no time to rest
...

Sometimes I'm lost in black and white

May I look good in technicolor?
Sometimes I'm smart and sometimes I play the fool

Teach me the rules
so I can understand the game.

Come on
take my hands tonight
no time to rest

Take my hands tonight
tonight
tonight.
Come on
take a chance tonight

Come on
we are beginning to testify
testify.
Come on
take my hands tonight
no time to rest

...
Come on
take my hands tonight
no time to rest
