I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

Sometimes through situations, which can't be handle without a friend

A friend who gives you patient and tells that this is not the end

Lovers come and go but they always, they always turn their back on you

But my love, is forever and I will stay, stay true to you

I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

I will always be your friend, so you can always count on me

If you need someone to lean on, just call me, you know where I met

And I will help you to hold on, be sure I will always got your back

So many times you trusted in me, and I never
dissapointed you

I promise to be your man, you know that I'll be there for
you

I will always be your friend, so you can always count on
me

I will always be your friend, so you can always count on
me

I will always be your friend, so you can always count on
me

I will always be your friend, so you can always count on
me
