Easy
When your heart knows
Love will come and go, like shadows and moonlight.
Maybe, girl you don't know
Angels smile and
so - let's take the chance.
Darling, oh hear the ocean
Beating in my heart in my heart tonight.

It's a game and masquerade of loneliness
Baby your words can not express
Don't let it get you down tonight.
It's a game and masquerade of loneliness
There must be more to life than this
You know two wrongs don't make it right
It's a game!

Easy
Nothing comes easy
Throw the pain and fears, far far away girl !
Maybe this time you touch me
Set your heart so free, live all your dreams.
Darling you're my emotion
Beating in your heart in your heart tonight.

It's a game and masquerade of loneliness
Baby your words can not express
Don't let it get you down tonight.
It's a game and masquerade of loneliness
There must be more to life than this
You know two wrongs don't make it right
It's a game!
