"Crisis Of Mine"

What's wrong with us little girl
I'm safe in our own stupid world
We're always catching some train
Careering is not where we came

A drop in the ocean making us sweat
Hear another notion shaking us yet
This crisis of mine

What's wrong with millions today
If no-one's got nothing to say
As one more secret explodes
Succeeding but nobody knows

A drop in the ocean...

I don't feel fine
In this crisis of mine
I don't feel fine

What's wrong with us little girl
Dreaming in our own stupid world
Recurring again and again
Our face on the face of a friend

A drop in the ocean...

A drop in the ocean making us sweat
Hear another notion shaking me yet
