Oh oh ohh

Oxygen  
Back again  
Brace myself  
Turn the music up  
Ready now, I don't wanna stop

The beat and the rhythm  
The music is taking over me  
And I know, I'm back where I belong

Ain't nobody gonna turn it down  
Ain't nobody gonna tell me who to be  
Let the music set you free

Ain't nobody gonna take control  
Nothing else can ever give me what I need  
Let the music set you free

Oh oh ohh  
Oh oh ohh  
Can you feel it?

Take control

Caress the bass  
It resonates  
Boom boom  
Lights are blinding me  
See clearly now, I need to be free

The beat and the rhythm  
The music is taking over me  
And I know, I'm back where I belong

Ain't nobody gonna turn it down  
Ain't nobody gonna tell me who to be  
Let the music set you free

Ain't nobody gonna take control

Nothing else can ever give me what I need  
Let the music set you free

Oh oh ohh  
Oh oh ohh  
Can you feel it?

Ain't nobody gonna turn it down  
Ain't nobody gonna tell me who to be  
Let the music set you free

Ain't nobody gonna take control  
Nothing else can ever give me what I need  
Let the music set you free

Can you feel it?

Ain't nobody gonna change me  
Ain't nobody gonna change me, change me  
Let the music set you free yeah yeah

Ain't nobody gonna take control  
Nothing else can ever give me what I need  
Let the music set you free yeah yeah
