

Thursday "Evacuate"

Visit "[Evacuate](#)" on MotoLyrics.com

Conditions are getting worse
And there's nothing left I can do
Gonna leave while I can
I'm gonna...
with or without you

It never used to be like this before
But it's something I just can't ignore
I'm gonna leave before it's too late
Erase my presence - evacuate

I've had it up to here with lies
I gotta make different plans
I'm already rotting inside
Seems like you'll never understand

It never used to be like this before
But it's something I just can't ignore
I'm gonna leave before it's too late
Erase my presence - evacuate
