I took my baby dining, dancing too
She took my arm and then she'd cuddle and coo
She said, big dad I've got a runner in my hose
And I'll be back soon as I powdered my nose
Abracadabra, where is my baby?
Abracadabra, no more baby...
Must be magic, but soon she'll be seen
On the arm of some man that shows a little more green

I turned a corner and I happened to see
A little doll, so I said come down with me
So she could pay her bill, I loaned her some jack
I been a-waiting three hours and she ain't got back
Abracadabra, where is my baby?
Abracadabra, no more baby...
Must be magic, but soon she'll be seen
On the arm of some man that shows a little more green

I took my baby dining, dancing too
She took my arm and then she'd cuddle and coo
She said, big dad I've got a runner in my hose
And I'll be back soon as I powdered my nose
Abracadabra, where is my baby?
Abracadabra, no more baby...
Abracadabra, where is my baby?
Abracadabra, no more baby...
Abracadabra, where is my baby?
Abracadabra, no more baby...
