That was more or less another pointless exercise
Just another future that's past.
But I had to say it came to me as no surprise -
Took it all too heavy
too fast.
Never found the time or inclination to look back

Never found a reason to rhyme.
Suddenly he looked at me
we're running out of track

How to switch to motion and time.

Take it out on time
take it out on time

Take it out
somehow
somebody who cares.
Take it out on time
take it out on time

Take it out who wins
who whispers
who dares.
Is it just a matter of convenience and then
Fitted all the pieces in line

Guess we ought to learn from our experience again
'cos it's just a matter of time.

Take it out on time
take it out on time

...

Take it out on time
take it out on time

Take it out on time
take it out on time
