1st verse :

I told her

Deeper than the deepest ocean

Vast as the universe

High like any mountain top

Put your world in reverse

Ain't nothing in these words rehearsed

So maybe we can make a first

Let me begin with a simple phrase

I'm a sinner

For lovin' you the way I do

Life's been peaks & valleys

With winds of change

Still love you all the same

I never believed that love

Could be for me

Now I see

Clearly you were meant for me

And now I know the truth

Is to be with you

'Cause I know your love

Will always be there

Chorus :

So maybe if you give me

Maybe just one more day

Find it in your heart to stay

And maybe make it better

Maybe we can make it right

Maybe if you hold on

And if you hold on

Maybe just one more day

Find it in your heart to stay

And maybe make it better

Maybe we can make it right

Maybe if you hold on

2nd verse :

Find out how deep this love can go

Cause there ain't no

Guarantee

You leave or stay with me

That anyways the right way

But surely we gon' make today

Understood, if you would

I'll be good

'Cause knowing at times

You couldn't stand it

Feeling taken for granted

But I'm here to tell you, baby

I ain't going nowhere

I'ma be right here

Best believe

If love is all you need

Ooo, wee, baby,

Thick like gravy

Ups or downs

Highs or lows

Where we'll stop

Only love knows

Chorus

Break :

It ain't gonna be this way

We can work it out if we take our time (2x
