1st verse :

Girl I want you

Right where you are

Just hold it there don't move

My shining star

You must not know

Exactly what you mean to me

So deeply, completely, you got me

And I'm needing your love

Chorus :

If you're feeling lonely

And you need someone to love you babe

You can always trust me

'Cause babe I can take you high

And whenever you need me

Girl I could be just you & I

'Cause girl you are so lovely

So baby can I take you high (3x)

2nd verse :

I've been meaning to tell you goodbye

But I can't seem to let you go

Girl I thought it was just a fling  
Now what we have is so beautiful  
We've been keeping it on the low  
And now I don't care if anybody knows  
That I love you, so deeply, completely  
I gotta tell you so

Chorus

Break :

So lover, your love  
You've inspired my heart  
When you kiss me I blush  
Feels like I'm in heaven when we touch  
'Cause you are so lovely
