You think I'm a scoundrel
And you're probably right
But you float into my dreams everynight
And I'm wishing
Oh yeah I'm wishing....

(Chorus)
Can we at least talk
Maybe even take a walk
All those hurtful things I've said....
I meant them.

I think you're evil in a woman's skin
I think you see it when you look within
What is wrong with you let me be
Stop continually
Calling me

(chorus)

Verse 2 repeated

(chorus x2)

I guess in reality I'm wishing
Yes wishing.....

YOU WILL DIE ON ME!
