Hiding Away, by the Libido Boys

Hiding behind an image that others have made for you

Avoiding yourself you've got to escape to find the truth

Never knowing what you're doing it all for

Always stumbling, when will you stand up straight

Hiding away, hiding away

Hiding away you were never true to yourself

Avoiding reality making excuses to be like someone
else (x2)

Using others as an example for yourself

Never seeing what you're about inside

Blaming others for the mistakes you've made

Can't see yourself through your own eyes

Hiding away, hiding away
