Lady Temptress  
Lucifer's daughter  
Born in my flesh  
Arise and be revealed

Unknown for corrupted minds  
She dwells in malignancy  
In the distant crypts of your inner self  
Where Man of God doesn't seek

Please don't leave me, Lady Temptress  
Revel in my body, Lady Temptress

Lady Temptress  
Meet me in my dreams  
Trace my dark sides  
In the depth of my subconscious

Open the door  
To the slumbering sinner  
Rule my evil thoughts  
And let them all out

Lady Temptress  
You are the blood of Man  
The remedy to hypocrisy  
Please stay alive

You keep my desires unlocked  
And my desires in you  
The lady of temptation  
Hails the human nature

Please don't leave me, Lady Temptress  
Revel in my body, Lady Temptress

I beg on my knees  
Make love to me one more time
