Lyrics : Edlund

Decoctions of Jimsonweed

Slimy trailing plants distil

Claustrophobia and blood mixed seed

Cursed downstairs against my will

Cobweb sticks to molten years

Cockroaches served with cream

I wipe the silver bullet tears

And with every tear a dream

With every tear a dream...

Honey tea, psilocybe larvae

Honeymoon, silver spoon

Psilocybe tea

Energy trickles with the tide

Masterminds and the suicide squad

Drink acid water by my side

Stake the saviour of their daily fraud

Overfilled toothpaste tubes

Sleepless and timeless faces

Drippety drop on sugarcubes

The one eyed's eye twinkles and gazes

Twinkles and gazes...

Honey tea, psilocybe larvae

Honeymoon, silver spoon

Psilocybe tea
