I'm down on my luck
I don't know where to go
I just don't give a fuck

I'm stuck on broken glass
And I've broken lights here
And I've crashed down on my ass

And it seems like the world's gone black
And the stars don't really shine
And the moon's cut a lot of slack

And the days go by so fast
And the sun just starts burning
And the daze, it spreads so fast

So fast
The daze it spreads so fast

And it's like the truck has stopped
And dropped all of it's cargo
Right off on my back

And it's like there's no one left
That I can ever turn to
To let go of my wrath

And it's like I'm on thin ice
Don't know exactly where I'm headed
But I know where I'll be goin

And it's like there's no way back
To the way it used to be
To the way I used to see

And the daze
It goes so fast
The daze
It comes so fast

The daze

The daze

And it's like I can't think straight
What can I do
When there's nothing to do?

And it's like I've lost myself
Can you find me again?
Can you be my friend?

And the daze
It goes so fast
The daze
It comes so fast

The daze
The daze

I'm in a daze
I'm in a daze
I'm in a daze
I'm in a daze
