There's nothing wrong with me, I'm ok  
It's only because recently been kind of grey that I feel  
down  
I know what I'm aiming for  
Don't think so much about everything and let the day  
take over  
It ain't that hard to do

It's a beautiful day outside  
But you don't know how to fly

There's nothing wrong with you, you're ok  
It's only because things don't always go your way that  
yo feel down  
Hey, what you waiting for?  
Don't think so much about everything and let the day  
take over  
It ain't that hard to do

It's a beautiful day outside  
But you don't know how to fly  
It's a beautiful day outside  
But you don't know how to fly

Hey, what you waiting for?  
Don't think so much about everything and let the day  
take over  
It ain't that hard to do

It's a beautiful day outside  
But you don't know how to fly  
It's a beautiful day outside  
It's a beautiful day outside  
It's a beautiful day outside  
It's a beautiful day outside
