"A Young Summer's Youth"

Visit "[A Young Summer's Youth](#)" on MotoLyrics.com

Still capture the minutes
Still passin' out days
I'm glad that I found you
On that last summer's day

'Cause no one defeats you
You call out their names
And everyone wants you
To shine on their way

Oh, come closer show be better times
I believe you showed the best of me
And turn your magic moments on
I believe you took the best of me

You blow out the winter
You blow out the spring
And you tease the wild autumn
With lilies of green

And you make me believe
That my life have been blessed
And show me the days
My life will protect

Oh, come closer show be better times
I believe you took the best of me
And turn your magic moments on
I believe they showed the best of me
