Come to me baby, come to me C.O.D.
Come to me baby, come to me C.O.D.
I can't stand these blues, they're too much for me

You know special delivery, return so many line
Ah, special delivery, return so many line
I don't want no credit, just let me love you 'til I die

You know some will like to argue, every time they take
drink
I don't have the time to do either one if our love is on
the blink
Come to me baby, come to me C.O.D.
Put my money on my honey, cash on delivery

Ah, special delivery, return so many line
You know special delivery, return so many line
Don't give me no credit, just let me love you 'til I die,
yeah

You know some will like to argue, every time they take
drink
I don't have the time to do either one if our love is on
the blink
Come to me baby, come to me C.O.D.
Put my money on my honey, cash on delivery

Come to me baby, come to me C.O.D.
Come to me baby, come to me C.O.D.
I can't stand these blues, they're too much for me

Oh baby, baby, come on, make it C.O.D., come here
baby
Oh, listen baby, I need you right now, can't you come
right away?
Make it C.O.D., oh C.O.D.
