No one to help me, I can't explain  
No one to make a translation  
Where do I go, What do I do  
So tired and full of frustration

[Chorus:]  
25 Seconds to Die  
(You gave him)  
25 Seconds to Die

Where is my mother, I cannot see  
I break this table and chair  
Whipped into frenzy, I cannot think  
Why doesn't anyone care

[Chorus]

No one took the time to evaluate  
No physical force, no pepper spray  
Four on one with a tazer gun  
Fifty thousand volts deliver pain

Convulsing, but shot again  
Excessive force has been applied  
No pulse, the heart has stopped  
No attempt to revive

[Solo]

The fault of police, security  
The YVR and immigration  
The airline, travel agency  
A disgrace to the nation
