'we had a great time doing this one! mike's
untouchable drumming, my toughest
Guitar work yet and wayne's 'cheesy' violin playing are
just three of the
Ingredients that went into making this an annihilator
classic. oh yeah, the
More time you hear this, the more you'll hear. thanks to
the many, many great
People we've met in the last few years and may you all
be healthy and happy.
This recording is dedicated to the memory of ida
smith.'

I dropped out of the rat race
I just needed a break from it all
And now I live in the country
With the birds and the bees and these bright white
walls
Let me introduce you to some friends of mine
They're so polite and they dress so fine
Sometimes they take me for a walk in the sun
I get to play in the grass 'till I'm done
Brain dance
Brain dance
This is brain dance
Watch my brain dance
I'd like to call myself an artist
My toe paintings are just the best
But when my feet get tired
I lose the crayon and get some rest
I've got a feeling there's a fish in the floor
I'd better squish it or he'll swim out the door
Sometimes they take me for a walk in the sun
I see my fish and I have to run
Brain dance
Brain dance
This is brain dance
Watch my brain dance
Rubber shoes, a dirty sock
Plastic toes and it's my pet rock
And this song is very silly and it makes no sense at all
because it's weird

Out of the pan and into the fire and back in the pan
again
He jumped out of the frying pan, into the fire and he's
back again
He jumped, what? , yes he's jumped and he's flying
through the air
He jumped out of the frying pan, into the fire and he's
back again
Let me introduce you to a friend of mine
She's been here for quite some time
Sometimes we go out for a walk in the sun
To walk with alice is always fun
Brain dance
Brain dance
This is brain dance
Watch my brain dance
