Hiding in the darkness, sheltered from the rain  
My mom and dad are gone now, I'm alone again  
Is anybody out there? Does anybody care?  
I don't wanna live here anymore, I don't wanna live

See the people suffering, watch the children die  
Doesn't it make you wonder why?  
Money and power, the television's red  
One by one, they collect the dead

Hell is a war, hell, what is it for?

They'll slay the innocent and every mothers son  
To get the ethnic cleansing done  
Hey Mr. Politician, what are you gonna do?  
This nightmare's up to you

Hell is a war, hell, what is it for?  
Hell is a war, hell, what is it for?

Go

Stopping for nothing, I fire at will  
In the name of my religion, I shoot to kill  
To kill, to kill, to kill, to kill, to kill, to kill, to kill

See the people suffering, watch the children die  
Doesn't it make you wonder why?  
Money and power, the television's red  
One by one, they collect the dead

Hiding in the darkness, sheltered from the rain  
My mom and dad are gone now, I'm alone again  
Is anybody out there? Does anybody care?  
But I don't wanna live here anymore, I don't wanna live

Hell is a war, what is it for?

Hell is a war
