

# Annihilator "Reaction"

Visit "[Reaction](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Look, accidental intake down the throat  
The chances of survival can be quite remote  
Extreme reaction, I got to medicate  
Must inject the dose, I hope that I'm not late

Push the plunger all the way  
Pray to live another day  
Feel the rush through the veins  
Got to, got to uninvite the pain

Panic setting in, the waiting has begun  
Frustration, the damage has been done  
It's getting hard to breathe, the swelling is intense  
The last shot, it's the end of my defense

Push the plunger all the way  
Pray to live another day  
Feel the rush through the veins  
Got to, got to uninvite the pain

Look  
Come on

Push the plunger all the way  
Pray to live another day  
Feel the rush through the veins  
Got to, got to uninvite the pain

Push the plunger all the way  
Pray to live another day  
Feel the rush through the veins  
Got to, got to uninvite the pain  
I got to uninvite the pain

Pain, pain  
Pain, pain
