I cannot lose control, they'll drag me down down the
hole

Must win the battle, I must win the war
Just buy our product and you'll want more
We say, refresh, refresh the demon

Subliminal, yet direct, another billion to collect
Another flavor to satisfy, they forgot to tell you it's all a
lie

Let's raise a glass to the young, models and athletes
they'll become
So sip the poison, sip the wine, suck your life out,
you're doing fine

We say refresh, refresh the demon

Temptation, frustration, it ain't easy to beat
Condition, addiction I shall defeat, back against the
wall

I'm through, There is only one thing left to do
That is to fight the demon

I cannot lose control, they'll drag me down down the
hole

Must win the battle, I must win the war
Just buy our product and you'll want more
We say, refresh, refresh the demon
