

# Annihilator "Ultra-Motion"

Visit "[Ultra-Motion](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Oh, pure speed in thermal overdrive  
Performance always set to the hilt  
Ignition, time to ignite  
The ultimate machine ever built

High octane adrenaline rush  
Nothing's gonna get in the way  
Time bomb, hell bent for destruction  
There will be hell to pay

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they melt into one  
We all come together in ultra-motion, motion

[Incomprehensible], burn, electricity  
Ripping through the airways, through the airways  
The direction's not an issue  
It is the energy that I crave, energy that I crave

Forces unnatural  
Conquering the speed of light, conquering the speed  
of light  
Charging, invincible  
I am the power and the might

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they melt into one  
We all come together in ultra-motion

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they melt into one  
We all come together in ultra-motion

[Incomprehensible]

Yeah, hell racer, hell racer, hell racer, hell racer  
I gotta go, I got the speed, I gotta go, I got the speed  
I gotta go, I got the speed, I gotta go, I got the speed

Oh, pure speed in thermal overdrive  
Performance always set to the hilt  
Ignition, time to ignite  
The ultimate machine ever built

Forces unnatural  
Conquering the speed of light  
Charging, invincible  
I am the power and the might

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they melt into one  
We all come together in ultra-motion

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they melt into one  
We all come together in ultra-motion, yeah  
I said motion
