Walking in the darkness
I'm trying to unwind
Just the kind of peace
I need to soothe my mind

I'm tired of all the noise
Tired of all the pain
Escape in the night
Just to face another day, another day

I'm talking to the wind
I'm talking to the wind

I can feel the calm
The pressure starts to go
And I can feel the life
It now begins to flow

There's something 'round the corner
There's something in the air
A cool, cool chill
But I really don't care, don't care

I'm talking to the wind
I'm talking to the wind

Showers, under moonlight
Try to rain on the parade
Don't fight the feelings, try to drain them out
Wash them away and they'll end without a doubt

I'm talking to the wind
I'm talking to the wind

Nothing's going to stop me
'Cause I'm heading for the sky
Release the tension
'Cause it's good to be alive

Don't try to mimic me
Don't try to bring me down
'Cause I've found a way

To soar above the clouds

I'm talking to the wind

I'm talking to the wind
