Down round my corner on two Endo Street
High in the building with a new front porch
A girl in a window is deep in debate
Whether to slouch or to sit up straight

And I have been wakin up and walkin outside
Down on my corner on two Endo Street
A girl in a window watches me walk by
I best decide if I like to know why

Oh this it not the wayâ€¦
I'll be eyes all we've ever been, we're gonna be
And the light I thought I saw was only me
A reflection of affection incomplete
Just a picture in a pothole, puddle in the middle of the
street

So I step right up, knock on the door
Straight in my shadow, I knock once more
The girl from the window she's not in the window, no
But I can hear footsteps falling on stairs

Oh this it not the wayâ€¦
I'll be eyes all we've ever been, we're gonna be
And the light I thought I saw was only me
A reflection of affection incomplete
Just a picture in a pothole, puddle in the middle of the
street

The door opens up, the sky opens too
I watch her eyes realize what to do
So now from the window, we watch the storm blow
Squadrons of raindrops filling potholes

Oh this it not the wayâ€¦
I'll be eyes all we've ever been, we're gonna be
And the light I thought I saw was only me
A reflection of affection incomplete
Just a picture in a pothole, puddle in the middle of the
street
