On this magic night
Every doubt has felt the light
They float away as if to say it's time
Time to live this dream
Shine the star that no one sees
With all the angel lightly band can break
The voice in side me says if everything
Sing about deep love
Sing about brave hearts
Sing about all the gifts we open with each distance
Sing about high hopes
Sing about worlds beyond
All the faith it takes to make us one
Can you feel it too
All I'm tryin to share with you
It's endless now I don't know how to hide it
Must be a sacred crown
Will life turn it's self off for a while
Cause heaven sparkles every kind of sight
I feel the message coming all the time
Sing about deep love
Sing about brave hearts
Sing about all the gifts we open with each distance
Sing about high hopes
Sing about worlds beyond
All the faith it takes to make us one
Let me fill your secret love and harmony to start
It lifts us up beyond the sky
Beyond the Sky
Sing about deep love
Sing about brave hearts
Sing about all the gifts we open with each distance
Sing about high hopes
Sing about worlds beyond
All the faith it takes to make us one
With all the faith it takes to make us one
Sing Singa
