I am a woman baby  
So far from a girl  
Whatever you need boy I'll here to please  
I hope you won't tell  
I know what you want let me be your supplier  
However you are have it let me be your baby  
Mister I get you right  
I give you that good bun, straight up and round  
Even though I'm ours I still gotta find ways to teach ya  
I ain't playing when I said I been here before  
I ain't playing when I said that you are the one

You got a woman baby  
You got a woman baby  
You got a woman baby  
You got a woman baby

Get you one more time when I come around  
I will love you, let me just take over over over  
Get you one more time when I come around  
I will love let me just take over over over

I came the last one  
You want a piece of me  
I give you all of it  
Just know that when you  
Come with me you stay forever under my wings  
You have to smile, wants it all, so much more  
Anything that you want from me  
Ain't no other woman like me  
Serve it up on a platter babe,  
Eat up cause I know what you want

I know what you want let me be your supplier  
However you are have it let me be your baby  
Mister I get you right  
I give you that good bun, straight up and round  
Even though I'm ours I still gotta find ways to teach ya  
I ain't playing when I said I been here before  
I ain't playing when I said that you are the one

You got a woman baby

You got a woman baby  
You got a woman baby  
You got a woman baby

Get you one more time when I come around  
I will love you, let me just take over over over  
Get you one more time when I come around  
I will love let me just take over over over  
Take over

Get you one more time when I come around  
I will love you, let me just take over over over  
Get you one more time when I come around  
I will love let me just take over over over

Take over

Take over x3

I give you that good bun, straight up and round  
Even though I'm ours I still gotta find ways to teach ya  
I ain't playing when I said I been here before  
I ain't playing when I said that you are the one

You got a woman baby  
You got a woman baby  
You got a woman baby  
You got a woman baby
