Uh-Oh, Why you holdin' back now?
Don't ya know it's time to let your inner freak out!
Uh-oh (Uh-oh!) Nothings gonna stop us.
Now when the beat is kickin' like the stars!
Why should I care about the opinion and the others.
I don't want to spend my time hiding under the covers.
Scared to let it loose, let myself go, and just be free.
So, Ima do what I do best, that means I'm gonna do
me!
See now don't stop, let it let it all hang out, come on get
with it,
If you want it, hear we go, but you gotta let it go.
Feels good, real good.
Don't be afraid to sing it now
Hokkie Dokkie, karaoke. Everybody get on down.
Arms out hands up, push it like you had enough, come
on let me hear the love, YEAH!
Just let it loose now, Everyboby hit the floor.
I know you know how, what you holding back for.
So don't be shy no, All the people let's get to it.
Come on just let it go, and that's the way you gotta do
it!
No matter what they say, Ima be me. (HEY!)
The only person that I wanna be. (HEY!)
I'm letting loose, coming out of my shell, (HEY!) I'm
doing me because I do it so well! (HEY!)
Arms out hands up, push it like you had enough, come
on let me hear the love, YEAH!
Just let it loose now, Everyboby hit the floor.
I know you know how, what you holding back for.
So don't be shy no, All the people let's get to it.
Come on just let it go, and that's the way you gotta do
it!
