(Johanna Demker)

All I want to do, all I want to do
Is to be around you, be with you stay with you for a
while
I don't want to think, I don't want to think
Think about all the things, things
That surround us in our lives

All I want is to live for what I feel is that so bad
I've got so much to give and I don't want to hold back

I want to lose myself in you
I want to sink right through
Let me swallow every touch that you're giving
I want to breathe into your soul
Come with me and let go for a while

In my head I know, in my head I know
That I ought to let you go, let you go get you out of my
mind
I don't know you well, you don't know me well
And it can be hard to tell, hard to tell, loving can make
you blind

Bring me out on an endless ocean let the waves take
control
This is nothing but pure emotion let yourself go

I want to lose myself in you
I want to sink right through
Let me swallow every touch that you're giving
I want to breathe into your soul
Come with me and let go for a while
I want to love I want to trust
that what I feel is not too much to be real
And I'll wake up with nothing to give
