Hard not to be so hard on myself
I'm tryin to learn to keep my mind in check
I listen to my friends when they say
It's destiny, its meant to be this way
I found that they're right and now I see
That all this time and I had the key
So now I'm on a roll, I got nothing but luck
With a spring in my step as I strut down the block
I see the boys stare and...
I see the boys stare and...
I see the boys stare and...
I hear them talk

uh uh uh
As far as I go (and) uh uh uh
As far as I know (and) uh uh uh
I've always got (and) uh uh uh
A place called home (and) uh uh uh
I cross overseas (and) uh uh uh
It's fine by me (and) uh uh uh
'cause I'll never be (and) uh uh uh
Far from home (and) uh uh uh

My heart takes a hit and then my heart hits back
And each day I find comfort in the fact
I listen to my friends when they say
Man, just relax 'cause it's all a game
I found they're right and now I see
I'm gonna have my fun, what will be will be
Now I'm walkin up the street whistlin' this
Everything's in place 'cause I can't miss
I smile at my girls and...
I smile at my girls and...
I smile at my girls and...
I blow them a kiss

uh uh uh
As far as I go (and) uh uh uh
As far as I know (and) uh uh uh
I've always got (and) uh uh uh
A place called home (and) uh uh uh
I cross overseas (and) uh uh uh

It's fine by me (and) uh uh uh
'cause I'll never be (and) uh uh uh
Far from home (and) uh uh uh
