Crushing, bludgeoning you into dust  
Mushing, pounding you into dust  
Smashing, ripping, pounding your bones into dust  
I'm here to bludgeon you  
Now here I come, here I come to bludgeon you  
Ground down, viciously, pound down, horribly  
Ground down, viciously pound down into dust  
Crushed down into human dust  
I have come to fuck you, smash in your face  
The time has come for me to end, leave you in a ditch  
The time has come for me to  
Pound you with my dick til you're unconscious  
Bitch, I've shown you who's the bigger man
