She bled from every fucking hole!
That bitch bled for days, she bled from every fucking
hole
Blood dripped from her exits
First step; rip out entrails, through her bloody cunt
Nothing but a piece of meat, a disease ridden slut
Sick and tired of fucking whores; I'm trying sodomy
with saws
Let's see how fucking hot she is with her asshole ripped
to bits
Straight up her ass goes my blade, thrusting deeply
Nothing but a whore
Yeah nothing but a whore
Disembowel her fucking body,
Make her feel it
When I'm done with you, you won't have a cunt left
I guarantee
When I'm done with you, you won't have a cunt left
Blood seeping for her gash now, just as it should
I don't know how many times I told her
When I'm done with you, you won't have a cunt left
