She's in love  
She told me yesterday  
And now I know it's true  
Everything, all I've got  
Is everything you do

See the difference in her blue eyes  
What you see is a new sunrise  
Something's happening every day  
Wants her someone to take her away  
Away

Flowers, summer and sunshine  
And normally she's happy

See the struggle in her blue eyes  
Sometimes it's a big surprise  
Something's happening every day now  
It's another big display

She's in love  
She's in love

See the difference in her blue eyes  
What you see is a new sunrise  
Something's happening every day  
Wants her someone to take her away  
Away
