You see a cloudy day
I see a sunny sky
I gave you a handful of
Sour grass that made you frown

But if I say they're flowers
Then I guess it means it's true
If I say I love you
Then I guess it means I do
I'll see what I want to see
In everything you do
It makes me happy
To find the good in you

You see a cloudy day
I see a sunny sky
I gave you a handful of
Sour grass that made you frown

But if I say they're flowers
Then it guess means it's for real
If I say I love you
Then I guess it means I do
I'll see what I want to see
In everything you do
It makes me happy
To find the good in you

I'll sing happily if I want to
I'll sing you're perfect if I want to

Well if I say they're flowers
Then I guess it means it's true
If I say I love you
Then I guess it means I do
I'll see what I want to see
In everything you do
It makes me happy
To find the good in you
