(It's in F#)

Here I go again
making promises
if I tell you no
it still sounds like yes

You know the rest
do I have to say it?

Am I in too deep?
Can I still confess?
-when you trusted me
that was just a guess

I guess
you know the rest
you know the rest
do I have to say it?
Well, I warned you once
but without success
and I just escape
with my heart
a mess

know the rest
(it's not so easy)
you know the rest
(its not that easy)
do I have to say it?
you know the rest.
