Give yourself over listen the soul
Help us on over the distant shore
We can move far with the wind that blows
Pray you make our hearts and our defenses hold

Wanted to be free from all politickingâ€¦ that we see
This boy has traveled so long
But can't resign to defeat
So let it go and pass unseen through the silent
shadows
Where currents flow to be nearâ€¦ you
Have you forgotten so soon?
Have you forgotten so soon?
Give yourself over listen the soul
Help us on over the distant shore
We can move far with the wind that blows
Pray you make our hearts and our defenses hold

Help yourself out of the hole you lie
Give yourself soul that you've been denied
We can move further through bending tides
Pray that we go quick or we sleep in fire
Pray that we go quick or we sleep in fire
Come onâ€¦ pray!

With our defense, it prevent sickness
We hold out ground and let nobody test us
Whatever offends us, we keepin' it conscious
We moving to the rhythm that reveal a new concept
And through this harvest, a musical request
Reveal itself in a manner they can never contest
We carry no unrest / we seek only reason
For the search we go sleepless for the truth is the
deepest
We. per.sist / we meditate so our minds don't regress
And if we start again, we renew our purpose
Practice to increase fitness
We focus on quickness for the mind can fool the eyes
of the weak
The ground will grow it / the seed we sow won't sink
into the sea

Let the lyrics of my mouth come out and better the
policy
It's a gift that we can live this far and still receive,
So give it over, whoa
Have we forgotten so soon?
Have we forgotten so soon?
Give yourself over listen the soul
Help us on over the distant shore
We can move far with the wind that blows
Pray you make our hearts and our defenses hold
Give yourself over listen the soul
Help us on over the distant shore
We can move far with the wind that blows
Pray you make our hearts and our defenses hold
