Night is fallin' on this honky tonk city  
country music spliin' out on the street  
sure can sound good to a hard workin' man  
at the end of a hard workin' week  
did you kiss him when he left this morning  
does he know that he's needed at home  
if you don't feel that old thrill  
then somebody else will  
there's some mighty good women all alone

It's 10:00..... Do you know where your man is  
and are you sure that he's doin' you right  
are you still in his heart when he's out of your sight  
do you know where your man is tonight?

Sometimes lovers just get too busy  
livin' thier lives day by day  
a true lovin' heart is so hard to find  
and so easy to let slip away

so if he's there by your side  
count your blessing  
hold him tight and show him you care  
'Cause temptaions out there.....

It's 12:00..... DO you know where your man is  
and are you sure he's doing you right  
are you still in his heart when he's out of your sight  
do you know where your man is tonight?
