"Forever"

Visit "[Forever](#)" on MotoLyrics.com

I see the spark has gone
Now from your hollow eyes
And up until this point
I never realized

That I could hear you
But you haven't said a thing
I always thought that I
Just wasn't listening

What did we do to each other?
Now that we're running for cover
I could have sworn you said
You'd love me forever

What of the ties we've severed?
Thinking we'd go it together
I could have sworn I said
I'd love you forever

My heart can take so much
But can't stand your abuse
I never thought a heart
Would ever be much use

No bones within my heart
So I know it can't break
But that don't mean that I
Can stand and bear this ache

What did we do to each other?
Now that we're running for cover
I could have sworn you said
You'd love me forever

What of the ties we've severed?
Thinking we'd go it together
I don't remember saying
I'd love you forever

So now we go along

This lonely road alone
A pair apart, just set
Adrift without a home

And now I look upon
The love that we have shared
Never wept, never smiled
Wasn't getting anywhere

What did we do to each other?
Now that we're running for cover
I'm pretty sure you said
You'd love me forever

What of the ties we've severed?
Thinking we'd go it together
I know I never said
I'd love you forever

What did we do to each other?
Now that we're running for cover
I know damn well you said
You'd love me forever

What of the ties we've severed?
Thinking we'd go it together
I swear I never said
I'd love you forever...
