Cross the brink scrape the edge
Feel the wind hit your chest
Feel the rush take the leap
You're flying fast, you're landing free

Come alive, wake from the dream, come alive
Stand in the light of the sun
The breath of your life has just begun
When you come, come alive

The freedom fights in your soul
It takes you down so let it go
The lightning strikes the feeling burns
It reels, it cries, it craves, it yearns

Come alive, wake from the dream, come alive
The light in your heart is breaking free
The hope of the love that found me
Is come, come alive

If you want it, you got it, you know, it's for free
If you want it, you got it, you know, just believe, just
believe
If you want it, come and get it now
If you need it, come alive
You got to come alive
You got to come alive
