The harder I struggle, the tighter you grip, but don't
need to tell you, =
that's the way I want it, I'm easy to follow, you're easy
to spot, I bet =
I can shake you off, but I gotta want it. What good are
the times that I =
catch you alone? It took eternity and I forgot what I
wanted, what good =
are the times that I take you to task? You get me
distracted and I =
forget that I'm mad. I'm up on the counter, you're down
on the floor, =
the kitchen is dirty, pots and pans are flying, no food in
the cupboard, =
a knock on the door, let's give it a rest now, buy a beer
at the corner =
store. I'm going to bed now dear but you still want
more, and every =
single word you say I've heard before, oh, you're an
angel when you're =
in recline, and like an anxious fist my lullabye works
fine. Lullabye =
and goodnight, ain't that a great song? You're an angel
in recline, =
please go to bed dear, please go to bed dear, please.
