

## Tilt "Loyalty"

Loyalty wavering like heat above the hood  
All the cooling fluids escaping into pools  
I'm sucking in vaporized lives but i feel no effect  
And now my cells are altered adapted to neglect  
I'm killing myself somehow to stay awake  
I'm not particular who i entertain  
I'm not concerned with the spectacle i make

I'm preparing to make a big break  
Paring down the list of things to take  
What i leave behind i leave to fate  
Im preparing to vamoose  
Beefing up the list of shit to lose  
I've got words i'm not afraid to lose
