"New Day"

I'm the voice inside your room
I'm the mind that bends the spoon
I'm the toe that dips into the water of life
I'm the hand that combs your hair
I'm the touch that takes you there
Then in your hearts despair I'm gone, I'm gone

Cos there's a new day has come
Dance in the light till the summers done
Life's got a meaning
It's healing
The pain you are feeling inside
(Repeat)

I'm the sun that's in your sky
I'm the star that's burning bright
I'm the strength that gives you the reason to fight
I'm the blood that fills your heart
I'm the hand which hails the start
Then in your hearts despair I'm gone, I'm gone
