Make the sink a virgin genuflect and piss in it, worth all
the seamy =
novelties we ripped off at the joke store, we could be
immortal the way =
we get away with it, we ridicule the mannequins who
come here just to =
look bored. Nicotine molested taste it on our fingertips,
black tongue =
and vodka spit well, nicotine molested taste it on our
fingertips, black =
tongue and vodka spit well, little yellow bellies little
yellow bellies =
walking side by side, side by side. Welding up the air
hole indicates =
we'd better go, kicked out of a trailer park unconscious
in a shoe =
store, we may be immortal the way we get away with it,
proudly stolen =
cuts of meathemorrhage on the counter top. We live
and live.
